My Code of Ethics, by Claudia N. Johnson:

1. Mediums will maintain the confidentiality of all client information. It will never be sold.
2. Mediums will not dispense medical advice or diagnoses.
3. Mediums will use touch only in appropriate ways, and only with the explicit permission of the clients.
4. Mediums will give intuitive, psychic, or mediumistic information to clients only with their explicit permission.
5. Mediums will not use the professional relationship established through working with any business or organization in person or online as a means to develop intimate, and/or dating relationships with participants.
6. Mediums will phrase any information given to clients in a positive manner, emphasizing hope and empowerment as opposed to fear.
7. Mediums will refrain from exploring and working on their own psychological and personal issues while providing healing and information for participants during private sessions, courses, workshops, and events.
8. Mediums will conduct themselves in a professional manner in all circumstances, and treat each client, other participants, and colleagues with respect and care.
9. Mediums will focus on creating a safe, open-minded, open-hearted space where clients are encouraged and supported to honor and enjoy their spiritual experiences.
10. Mediums will advise clients how to prepare to get the most out of their session: if you can, be rested, hydrated, calm, open-minded and excited, bring something to take notes, if you have questions – write them down and bring them, think of the spirits you want to connect with, refrain from over-doing anything, especially alcohol, caffeine, or sugar for 12 hours prior to your session.
